

RIDOAN KHAN ANIK

Senior Project Manager — Solution Architecture & Agile Delivery Leadership

Mirpur, Dhaka, Bangladesh | +880 186-1858938 | ridoankhan07@gmail.com | linkedin.com/in/ridoankhananik | github.com/ridoankhananik

SUMMARY

Senior Project Manager with 8+ years spanning IT project delivery, solution architecture, and Agile leadership. Proven track record acting as solution architect and delivery owner for enterprise and international clients, including Japan-based organizations, translating business requirements into scalable technical solutions. Experienced coordinating cross-functional and cross-organizational teams, managing project risk, budget, and delivery timelines, and evaluating emerging technologies (cloud, mobile, blockchain) for business adoption. AWS Certified | Professional Scrum Master.

CORE SKILLS

- **Languages:** JavaScript, TypeScript, Python, Java
- **Project & Delivery Management:** End-to-end IT project delivery, Agile/Scrum methodology, risk & dependency management, sprint planning, cross-functional coordination
- **Solution Architecture & Strategy:** Solution design & architecture, business requirements analysis, technology evaluation & adoption, interface design, scalability planning
- **Stakeholder & Business Engagement:** Business stakeholder management, requirement gathering, solution consulting, client communication, cross-level organizational communication
- **Cloud & Technology:** AWS (Cloud/SaaS, Lambda, serverless architecture), Node.js, TypeScript, Python, REST/GraphQL APIs, mobile app development (React Native)
- **Technology Breadth:** Blockchain (Ethereum, Solidity, Hyperledger), Microservices, Event-Driven Architecture
- **Databases:** MySQL, PostgreSQL, MongoDB, DynamoDB
- **Tools:** Git, Jira, Confluence, CI/CD Pipelines

PROFESSIONAL EXPERIENCE

BJIT Limited | Dhaka, Bangladesh | Sep 2021 – Present

Senior Project Manager (Jul 2025 – Present)

- Own end-to-end delivery of IT solutions for multiple enterprise and international clients, covering planning, execution, risk and dependency tracking, and closure, ensuring on-time, quality delivery.
- Act as primary point of contact for business stakeholders, facilitating solution-design discussions, requirement gathering, and status/risk communication across organizational levels.
- Facilitate Agile/Scrum ceremonies (sprint planning, backlog refinement, retrospectives) across cross-functional teams, aligning technical execution with business priorities.
- Coordinate internal engineering teams and client-side stakeholders to resolve delivery blockers and surface project risk early.

Principal Software Engineer (Jul 2023 – Jun 2025)

- Served as solution architect for two production platforms (including a Python-based backend for Therawin), mapping business and product requirements to scalable technical solutions and setting engineering standards for maintainability.
- Evaluated emerging tools and technologies for adoption, balancing performance, scalability, and long-term business value.
- Collaborated directly with clients and cross-functional teams to translate ambiguous business needs into reliable technical roadmaps.

Senior Software Engineer (Sep 2021 – Jun 2023)

- Delivered backend systems and APIs for production applications, contributing to solution design and technology evaluation.

- Contributed to blockchain-based systems (Hyperledger Besu), assessing new technology trends for business applicability.

Leads Corporation Ltd. | Dhaka, Bangladesh | Feb 2019 – Sep 2021

Senior Software Engineer (Mar 2021 – Sep 2021)

- Designed and implemented scalable backend frameworks, improving CI/CD integration and cross-platform delivery stability.

Software Engineer (Feb 2019 – Mar 2021)

- Built production-ready REST APIs and IoT backend systems, coordinating cross-functional requirements between devices, APIs, and client applications.

Providence Tech Sdn Bhd | Kuala Lumpur, Malaysia | Apr 2018 – Sep 2018

Junior Web Developer (Apr 2018 – Sep 2018)

- Built frontend UI, backend APIs, and mobile application screens (React Native), supporting early-stage product delivery.

SELECTED PROJECTS

MTS Connect — Enterprise B2B Solution for Marubeni (Japan) | mtsconnects.com/login

Solution-architected and delivered a B2B industrial equipment portal for a Japanese multinational client (Marubeni), featuring real-time inventory API synchronization and an integrated maintenance system for 500+ corporate clients.

Tech: Node.js, TypeScript, Multi-Tenant, AWS (Lambda, API Gateway, RDS, S3), Next.js

Saguts — Fan Engagement Platform for Sagan Tosu FC (Japan) | webapp.saguts.iasmy.co.jp/

Designed and delivered a community engagement platform for a Japanese football club, enabling digital transactions usable across 500+ local merchants.

Tech: Node.js, TypeScript, AWS (Amplify, Lambda, DynamoDB), Next.js

Therawin | therawin.health/

AI-driven mental-health solution architected and developed for evidence-based, personalized care delivery and treatment tracking; backend built in Python.

Tech: Python, Node.js, TypeScript, Express, AWS (Lambda, HealthLake, RDS), React

MindWren | mindwren.imbesideyou.world/

AI-powered mental-health app integrating AI insights into video, audio, and text to build a proactive wellbeing ecosystem.

Tech: Node.js, TypeScript, Express, PostgreSQL/MySQL, React, AWS (EC2, RDS, S3, Lambda)

OpenPost — NFT Marketplace (Japan) | market.openpost.co.jp/

Solution-architected an NFT marketplace for a Japanese animation and art client, enabling royalty-based resale and dynamic auctions for creators and collectors.

Tech: Spring Boot, TypeScript, Ethereum, Web3, Solidity, MySQL/PostgreSQL, React

EDUCATION

Bachelor of Information Technology (Hons) — Nilai University, Putra, Malaysia

Oct 2014 – Aug 2018 | Result: 3.63 / 4.00

CERTIFICATIONS

- **AWS Cloud Practitioner:** Amazon Web Services
- **Professional Scrum Master (PSM):** Scrum.org
- **IBM Blockchain Foundation Developer:** Cognitive Class, IBM Online Certification
